

# What you should know before you vote...

SB309 was written by the Indiana Energy Association for utility companies. Because privately-owned solar reduces profits for their shareholders, the goal of SB309 was to stifle the free market by phasing out net metering, a key financial component of solar common in many states. SB309 passed out of the Senate by a large margin, the House by a close vote, and became law in May 2017.

Before you vote, check these lists to see if your legislator voted to protect your interests or voted to protect utility profits...

## THESE STATE LEGISLATORS VOTED TO PROTECT YOUR SOLAR RIGHTS BY OPPOSING SB309

# PRO-SOLAR

# ANTI-SOLAR

Don't vote for legislators who voted against private ownership of solar for your home, business, school, church or municipality. Solar saves energy costs and helps schools and municipalities save tax dollars. Don't put these folks back in office!

**Print this page and bring it with you to the voting booth.**
